## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 5 and 7-11 are allowed.
2. The following is an examiner's statement of reasons for allowance: Prior art shows a piezoelectric actuator injector comprising: a metal case provide on the outside of the side surface of the piezoelectric device, an insulating member place between the piezoelectric device and the case wherein, the silicon insulating member is made of a piece separated from the piezoelectric device and the insulating member is adhered to the inner wall of the case.

However, Prior art fails to show a piezoelectric actuator using a laminated piezoelectric device having alternately layered piezoelectric layers and electrode layers including a metal case provided on the outside surface of the piezoelectric device and an insulating member being made separated from the piezoelectric device, wherein the insulating member is made of a separated piece of paper or a resin wound around the piezoelectric device which has a polygonal or barrel-shaped cross section perpendicular to it's extending and contracting direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
